Pediatrics contributes the highest revenue among all departments, followed by Dermatology, while Oncology generates comparatively lower revenue. Most payments are successfully completed, indicating stable financial performance. Appointment trends show fluctuations across months, with a noticeable peak around April, suggesting seasonal demand patterns.

Patient Summary Table

Patient Name	gender	Total Treatments	Total Spend
Linda Moore	Female	2	$1,736.69
David Davis	Female	2	$3,636.89
Jane Smith	Female	2	$4,506.78
Linda Brown	Male	3	$4,947.03
Michael Johnson	Female	2	$5,362.51
Emily Moore	Male	3	$5,588.64
Emily Williams	Male	3	$5,602.68
Emily Smith	Female	3	$5,968.74
Jane Moore	Female	2	$6,237.18
David Williams	Female	4	$7,719.07
Emily Jones	Female	2	$7,728.88
Laura Jones	Male	2	$7,936.88
Alex Smith	Female	3	$9,104.39
Laura Johnson	Female	4	$9,308.08
Robert Taylor	Female	2	$9,324.10
Total		**200**	**$5,51,249.85**

Treatment analysis shows that MRI and Physiotherapy contribute the highest average costs, indicating key revenue drivers. Patient distribution remains balanced across genders. A small group of patients accounts for higher total spend, highlighting opportunities for targeted care and revenue optimization.
